

MRO WITH SYSTEM

LISTA WORKSPACE EQUIPMENT FOR MODERN AUTO WORKSHOPS

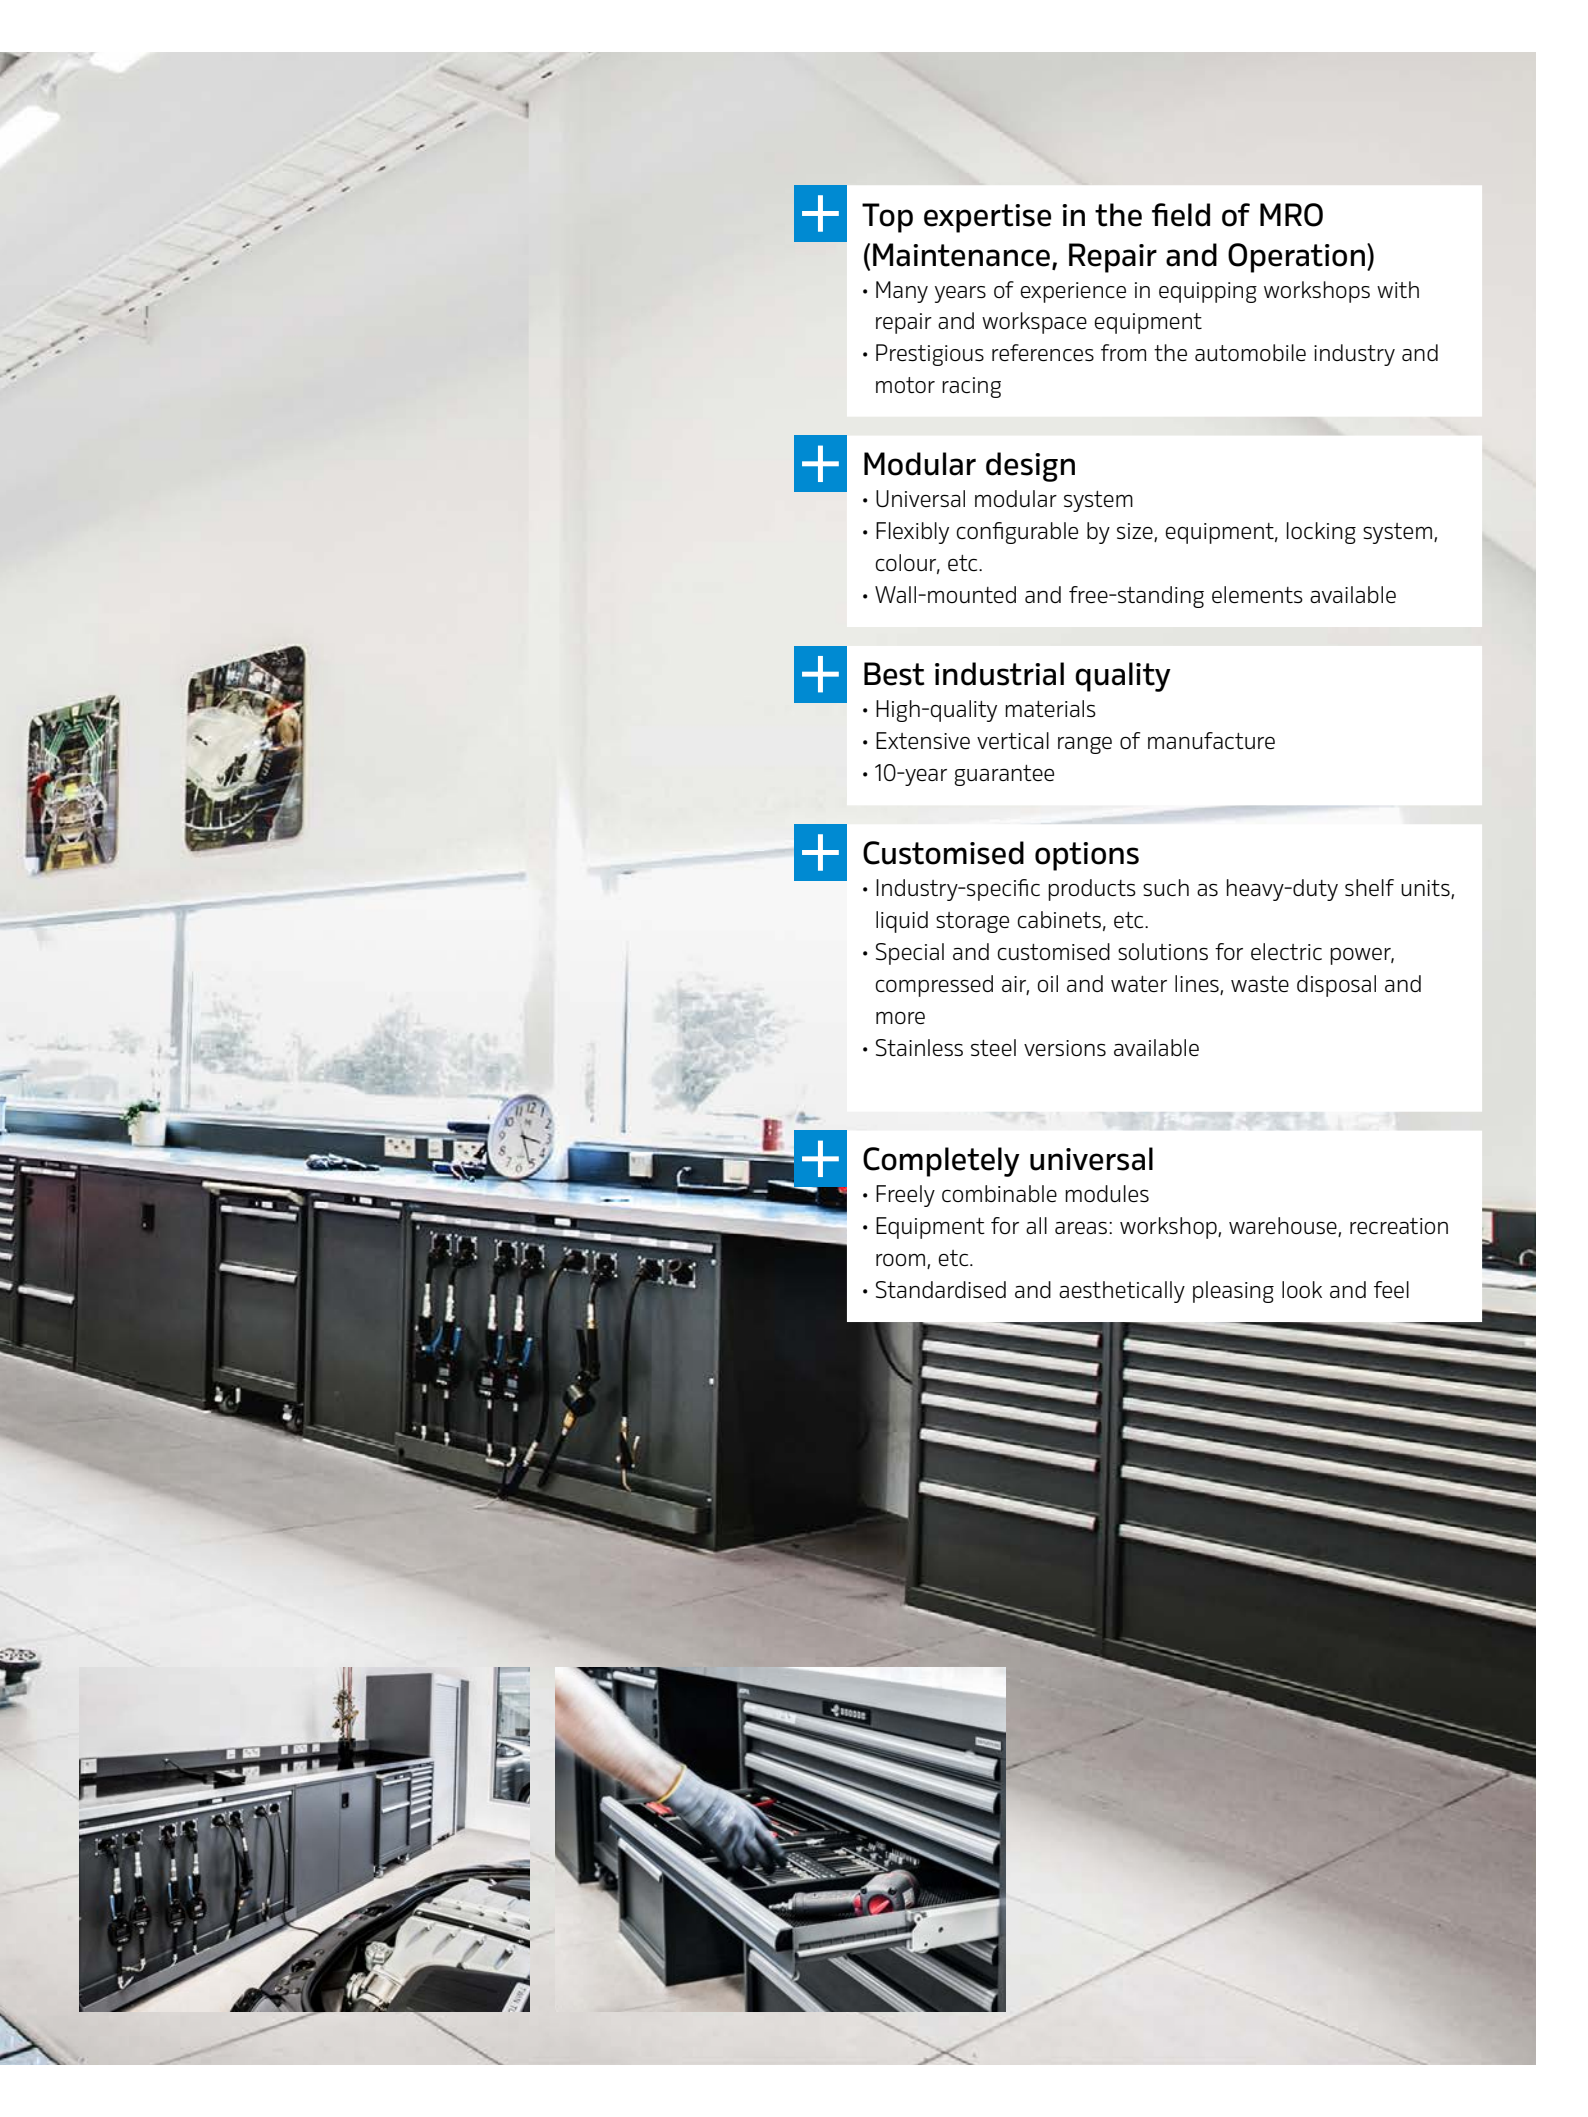

THE BRAND OF BRANDS

Workspace equipment from LISTA has been tried and tested thousands of times in the automotive industry and motor racing. All major brands rely on the high-quality system that flexibly fulfils every customer requirement from single drawer cabinets to fully integrated work lines. The modular design and excellent quality ensure that LISTA applications are a perfect fit, as well as being durable and robust. Special requirements of the sector are implemented in detail. This enables you to benefit from an personalised, coherent solution that makes your workshop better-organised, more efficient and even more visually appealing.

Put your faith in superior quality and durability – just as leading automotive brands worldwide do.

Free choice of colours

From classic grey to a sophisticated corporate design, your LISTA workspace equipment is available in any colour you wish. And you can also order housings and drawers in different colours.

ERGONOMIC AND EFFICIENT INDUSTRY-SPECIFIC MODULES, SUPER- STRUCTURES AND ACCESSORIES

LISTA knows what is important in the automotive industry. That's why LISTA offers a wide range of purpose-specific modules, super-structures and accessories to equip your workshop to the highest standards. Industry-specific details and special solutions for compressed air and other typical MRO applications provide top ergonomics – and thereby enhance your efficiency and productivity.

Individual locking system

From standard locking systems with replaceable cylinders to fully electronic access control systems, you can choose from five intelligent levels of LISTA security systems. The latest generation includes an RFID lock featuring mobile control using a device such as a smartphone.

Waste disposal

Customised cabinets and containers are available for the disposal of typical waste materials and scrap.

Free-standing modules

Free-standing modules help you to exploit available space to the full even with no supporting walls.

Cabinets

With LISTA you can configure the equipment that is right for you from a wide range of standard units. As well as preconfigured cabinets, individually configured and special solutions are possible.

Accessories

Numerous accessories such as perforated panels, containers, vices and more, ensure an ideal supply and storage of materials.

Stainless steel worktops

Worktops in stainless steel meet the most stringent requirements in terms of hygiene, robustness and durability.

Partition materials

The extensive range of partition materials for LISTA drawers – slotted partitions, metal dividers, troughs, foam inserts and more – provide secure and neat storage of all parts and tools.

Elevated feet with stainless steel covers

Elevated feet keep the floor clear and make it easy to clean. Special stainless steel covers reliably protect them against dirt and corrosion.

Electric power, compressed air, oil and water

Special and customised solutions for the supply of electric power, compressed air, water and other liquids perfectly and flexibly fulfil the requirements typical of this sector.

LEADING BY EXPERIENCE LISTA IN THE AUTOMOTIVE MRO SECTOR

For many years, workshops all over the world have been successfully working with solutions from LISTA, including the service centres of major brands such as Audi, Porsche and AMG. Experience, quality and durability make LISTA a strong partner in the field of MRO. For you, too.

IN GOOD COMPANY LISTA IN THE AUTOMOBILE INDUSTRY

All major and well-known automobile manufacturers rely on LISTA quality. Whether Audi, Renault, Ford, Jaguar or Porsche: LISTA sets standards for all of them in terms of function, quality and design.

LAPS AHEAD LISTA IN MOTOR RACING

Ferrari, Mercedes, McLaren, Sauber or Gulf: LISTA enjoys a long-standing partnership with leading Formula 1, WEC, DTM and other teams. Because wherever speed and efficiency are called for, LISTA products are always miles ahead.

A SAFE BET

LISTA IN OTHER MRO AREAS

From aviation to the military, LISTA solutions are used all over the world as robust, orderly and secure applications in the field of MRO.
